Side Event 2

Partnership Bridging for China-Africa Rice Value Chain

Mr. Dageng LIU
8 September 2022

South-South Cooperation & SDGs

SUSTAINABLE DEVELOPMENT GOALS

- **South-South Cooperation** is a partnership among equals, which usually involves a learning process or transfer of expertise to develop skills and capabilities.

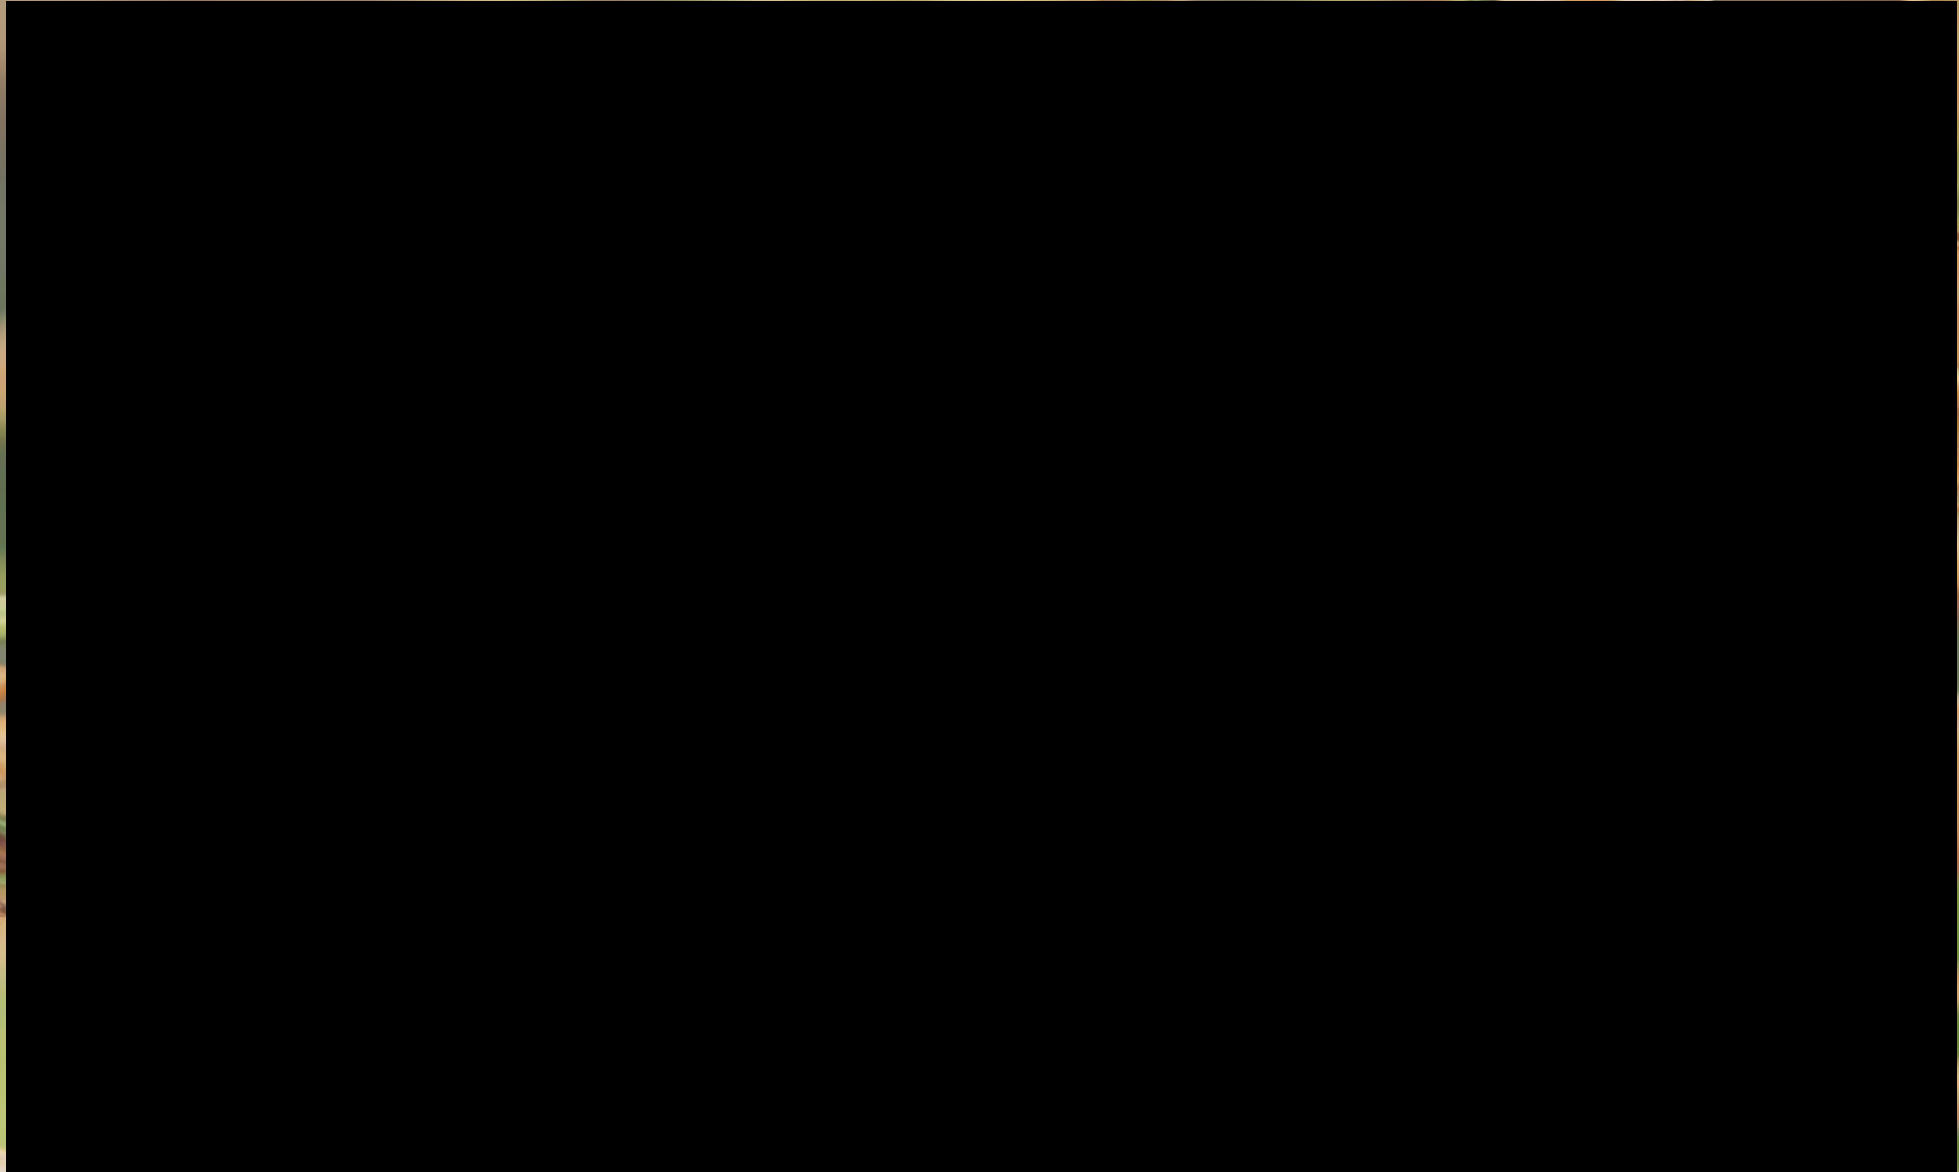

Together for the Prosperous Agri-Production

The Rice Value Chain Development Synergy

Some initial partners

An open network of
concerned partners

The Rice Value Chain Development Synergy

Global SSTC Initiatives 2021-2022

-  WFP HQ & Centers of Excellence
-  WFP-MARA SSTC Field Pilots
-  WFP SSTC COVID-19 Opportunity Fund Pilots
-  UNOSSC-China COE SSTC Pilots
-  WFP Brazil COE Beyond Cotton Projects
-  WFP Implemented IFAD-China SSTC Facility Projects
-  India-UN Development Partnership Fund Project

WFP- brokered SSTC field projects contributing to value chains

Rep. of Congo Cassava value chain 2019 – ongoing

- Enhance smallholder farmers' capacity on cassava processing techniques and connect SSTC-supported smallholder farmers to market through school feeding.
- 3,807 people reached

Madagascar Cassava value chain 2021 - ongoing

- Inclusive cassava value chain development for community resilience and women empowerment.

Guinea Rice value chain 2021 – ongoing

- Optimize rice value chain and support development of sustainable food systems in support to nationally led home-grown school feeding programmes.

Guinea – Part 2 Rice value chain 2022 – ongoing

- Improve local farmers' rice productivity by adopting advanced agriculture technology such as high-yield rice seed from China
